

# Sweepers

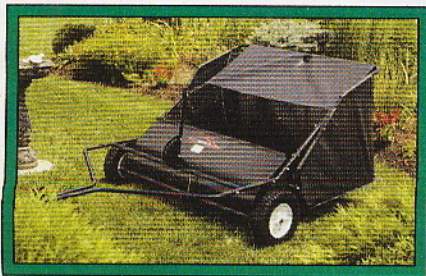

## The Best Choice at a Great Value

BRINLY has taken Lawn Sweepers to the next level using our intensive, customer-focused design process. Optimum size and performance, coupled with an exclusive storage feature, provide the best sweeper choice at a great value. BRINLY Sweepers are the industry leader.

## Why BRINLY Lawn Sweepers Are Better:

- Full swing hamper for easy dumping
- Six 11" diameter brushes with indexed brush height adjustment provides increased brush-to-ground contact
- Higher tip velocity: BRINLY's brushes have more force to move objects up off the ground and into the hamper
- BRINLY's higher number of brush strokes per foot of travel means fewer "skipped" areas when sweeping
- 5:1 brush/wheel drive ratio for maximum performance even at slower tractor speeds
- Sewn-on wind screen prevents loss
- Freewheels in reverse
- Heavy steel housing and tubular frame
- 12" x 3" wide tread wheels
- 2-Year Warranty

Brinly's dethatcher kit with two rows of individually flexing tines (24 total) gently but thoroughly comb thatch and clippings up out of the lawn for easy collection. When not in use, simply lock the dethatcher in "tines up" position; no need to remove it when sweeping up leaves.

Note: Smaller widths available. For more information visit our web site at: [www.brinly.com](http://www.brinly.com).
